Project and Community FAQ's

Hey, fellow Contributors 😊

As the project grows, it's important that everyone follows the established protocols and completes all the required steps before posting new doubts or issues. This helps ensure troubleshooting is not missed, reduces repeated questions, and lets us support each one of you more effectively. As we receive more questions that are frequently asked within the channels, we will add here.

Project Channels and Important Links

🔗 Helpful Link Bank

L1	**Outlier Community** Use the corresponding link according to your group. ➔ If you see ''Oops! That page doesn't exist or is private.'' you likely don't have access to that specific group. ➔ Project assignment relies exclusively on the client. Aether Generalists, Aether Multilingual, Aether Coders, Aether Avatar SFT
L2	**Aether Onboarding Help** Use this thread if you have any questions/issues related to the Onboarding process. Aether Onboarding
L3	**Project Tasking Platform** This is the link to tasks on the customer platform, use this link if stuck on the welcome message. Multimango Tasks

Section 1: Client Platform

Frequently Asked Questions about Client Platform

Q1	**Q1: Multimango Platform Problems (Feedback, Tasking, Errors on MM Platform)** ➔ Please report platform glitches, submission errors, or throughput blockers in our Daily Help Threads. When escalating your issue/raising a question, kindly include the applicable in the following format: • **Issue Category**: empty queue, courses, assessments, platform glitches, etc. • **Issue Description**: (please be as detailed as possible) • **Project Name as displayed in the Aether's platform** • **Task ID**: (if necessary) • **In-platform Screenshots**: (as per the recent update from the client, escalations without a visible representation of an issue on an in-platform screenshot won't be considered)
Q2	**Q2: Issue with Multimango verification email** ➔ Try again in approx 15min-1hr!! ➔ Get in contact with our Outlier Support team for further instructions.
Q3	**Q3: I don't have access to the mailbox of the wfe email, how am I getting the 2FA code?**

	Don’t worry! All the communications and messages related to that email are sent to your personal account. Keep an eye on it!
Q4	**Q4: I don’t see tasks in multimango.com yet, how can I fix this?**
	Most of the time, it is just a matter of waiting. However, please consult our announcement about approved status.
Q5	**Q5: I see tasks now! How much time should I spend per task?**
	Great! You can consult expected AHTs here: 🔗 **Expected Average Time Topic**
Q6	**Q6: Oops, I created my account incorrectly using my personal email, is there something I can do about this?**
	Don’t worry; however, as per the tutorial in the Account Creation Course, you must use the *wfe* email. You won’t see tasks there, and even if you do, they won’t be tracked in your account. To fix this, just create an account again, and let us know immediately in the Daily Help Thread, as your information must be updated in our data collection.
Q7	**Q7: I changed my password because I forgot it, is that an issue?**
	Yes, especially if you are just starting. Please reach out to us if you have an issue with it, but note that some of our automatic processes require the most up-to-date information to allow the next steps in your account.
Q8	**Q8: I need more feedback, where can I find it?**
	We try our best to keep you as updated as possible. Please note that at this moment, the QA process is completely done by the client; however, we post as much information as we have in our corresponding topics; follow the instructions in the platform, use the available guidelines bank and let us know about your concerns.
Q9	**Q9: I see an error when I try to submit, what should I do?**
	Please use the button to report the issue and skip the task. It is best to include evidence and a brief description of what was happening.
Q10	**Q10: Ok, but should I keep tasking for that subproject?**
	If the issue is still showing up, you should move on to the next task type. To prevent any unwanted flags about your time tracking, move to the next type once you notice a pattern.
Q11	**Q11: When can I go back to that subproject?**
	Sometimes we have a resolution after a couple hours or by EoD; however, it is not always the case. Please wait for any news, and try again later. Remember, if you do so and the issue is still present, move on to avoid unnecessary flags to your account.
Q12	**Q12: Is my account getting penalized for skipping tasks with errors?**
	Absolutely not. As long as it is justified, it is fine for these specific cases.
Q13	**Q13: Am I getting compensated for the time I spent while trying to submit with an error?**
	Yes, all the work you track is getting updated in your Earnings tab. However, to prevent being flagged for excessive time spent, move on to the next task type.

Section 2: Outlier – Aether Project

Frequently Asked Questions about Client Platform

Q1	**Q1: See no Tasks on Multimango - Stuck on Welcome Message**

➔ Try using this link after signing in
🔗 www.multimango.com/tasks

Q2 **Q2: Onboarding started over on Outlier**

- ➔ Don’t complete Onboarding again, just ignore it, this is a known issue
- ➔ Go to the community Channel, Paste your Outlier ID in question specific thread in channel below
  🔗 [Onboarding Project Issues Thread]
- ➔ Continue tasking on Multimango.com/tasks

Q3 **Q3: No longer assigned to Aether in Outlier BUT have access + tasks in Multimango.**

- ➔ Await update post in Outlier Community from Project Team.

Q4 **Q4: I disagree with an audit, where can I report it?**

While you can report inconsistencies in our [Review Feedback Collection] Threads...
- ➔ **Please note that we can’t change the scores you receive, as the Multimango platform is managed by the client.**

Q5 **Q5: I don’t see the project anywhere in my dashboard, can I still task?**

No. Please fill out the Aether Form and wait. Tasking without the project in Outlier can cause issues in the mapping of your time, be careful.

Q6 **Q6: The project is appearing as ineligible for me, what’s the issue?**

This would be a good time to use the Daily Help Thread. The most common issues are:
- ➔ Aether is not currently available in your region (we’ll let you know as soon as we have news about this).
- ➔ You, unfortunately, failed a qualification.
- ➔ The project is no longer available for you.

Q7 **Q7: I see that I have a *Senior Reviewer* Status in the project, why can’t I have reviewer tasks?**

The *Senior Reviewer* status just means that you have access to the Aether platform.

Section 3: Outlier Community

Frequently Asked Questions about Community

Q1 **Q1: Should I post my question more than once?**

	Do not do this. Everyone has a turn, and as QMs we try to get all questions addressed as soon as possible. Posting your issue over and over again will not make you get a reply faster, but will bury earlier questions in the thread.
Q2	**Q2: Can I simply post ‘‘fix my issue please’’ or ‘‘was my issue fixed?’’?**
	We need information to help you. **Follow the provided template:** ➔ Issue Category: (empty queue, courses, assessments, platform glitches, etc.) ➔ Issue Description: ➔ Task ID: (if applicable) ➔ Relevant Screenshots: (if applicable)
Q3	**Q3: I just got a reaction from a QM. What does that mean?**

👍 = Yes	❌ = No	👀 = Checking	✅ = Resolved
